## **IACET Grants Authorized Provider Status for Continuing Education Units to NFMT** *Attendees Can Now Receive Continuing Education Units Directly From NFMT*

October 23, 2008 - Milwaukee – NFMT show management today announced that the International Association for Continuing Education and Training (IACET) has officially certified Trade Press Publishing Corporation, NFMT's parent company, as an Authorized Provider of Continuing Education Units (CEUs). NFMT is now certified to offer IACET-approved CEUs for all current training programs as well as any created during the time of certification, for the next five years.

Trade Press Publishing completed an extensive application, has been reviewed by an IACET site inspector, and successfully demonstrated adherence to all ANSI/IACET Standards.

"We are very pleased with achieving this status and are dedicated to providing continuing education opportunities that are unparalleled in the facilities management arena," said Wendy Dietzler, director of education for NFMT. "Not only does this achievement demonstrate the educational mission of our conferences, but it keeps NFMT attendees ahead of the curve when it comes to managing and maintaining efficient and successful facilities."

At the 2009 show, which will be held at the Baltimore Convention Center March 10-12, attendees who complete educational sessions will be able to use NFMT-issued CEUs to maintain professional designations from organizations such as The American Institute of Architects, IFMA, Association for Facilities Engineering and BOMI, as well as state and local licensing boards. For more information, visit [www.nfmt.com](http://www.nfmt.com).

### **About Trade Press Publishing Corporation**

Trade Press Publishing Corp. produces NFMT and Facility Decisions Conferences & Trade Shows jointly with ROC Exhibitions. Additionally, Trade Press publishes *Building Operating Management* and *Maintenance Solutions* magazines and operates [FacilitiesNet.com](http://FacilitiesNet.com), an online portal for the facilities industry, and [FacilityZone.com](http://FacilityZone.com) – the premier vertical search engine for building owners and facility managers. More than 100,000 facility professionals rely on these information products for problem-solving editorial and product news that helps them manage and operate their buildings at peak efficiency.

### **About ROC Exhibitions**

ROC Exhibitions, Lisle, Ill., produces eight trade shows annually in the United States and Mexico including NFMT. ROC-produced events serve the fields of facilities management, fire-and-life safety, law enforcement and security, metalworking, plastics fabrication, assembly technology and electronics manufacturing.
