

## Corporate Overview

### The Global Leader in Supply Chain Risk Management

The world's largest, most innovative enterprises depend on extensive networks of supply chain partners to maximize their reach, scale, and profitability. While the benefits of this model are widely accepted, the risks that accompany it are a growing concern for the leaders of these companies. Research clearly shows that supply chain risks are now encountered more frequently and are proving to be more costly than ever before. The nature, complexity and potential impact of these risks vary greatly, but one attribute is universal—if left unaddressed, each will ultimately damage shareholder value.

Avetta transforms how enterprises assess and mitigate risk within their supply chains. We simplify the engagement and evaluation of suppliers and contractors to ensure alignment with each client's unique operating principles and regulatory requirements. Our SaaS technology platform and deep domain expertise enable the comprehensive collection and analysis of operational data to formulate a forward-looking risk profile for each partner company. This visibility empowers our clients to hire with greater confidence, knowing that business will be conducted with fewer incidents.

The Avetta solution validates historical performance and predicts future results in sustainable business practices including:

**Health and Safety**  
**ENVIRONMENTAL**  
**Corporate Social Responsibility**  
Financial Viability INSURANCE Quality  
Bribery & Anti-Corruption

Our global reach allows us to be available wherever our clients need us the most. We qualify supply chain partners in every major industry worldwide to meet both local and international needs. We improve communication and compliance for these diverse enterprises, making contractor prequalification manageable—even for multi-discipline organizations. Our innovative technology and rigorous qualification process improve supplier performance, validate safety records, and increase operational efficiencies in nearly every market.

### Our Industries Include:

- Energy 
- Facilities Management
