

DexArmor™

UV-CURABLE FLOOR FINISH

THE FUTURE OF FLOOR MAINTENANCE

DexArmor cures rapidly providing a clear, transparent, high gloss topcoat. This topcoat exhibits excellent performance properties including chemical and wear resistance, dimensional stability, gloss retention and low maintenance requirements.

In addition, DexArmor offers:

- Fast installation
- No downtime
- Outstanding resiliency
- Easy to maintain

Unlike wax or epoxy, there are no solvents so that means no strong odors and no need to quarantine areas of your facility for long periods of time.

NO NEED TO BUFF OR BURNISH

DexArmor's coating is designed with the resiliency to withstand the brunt of day-to-day operations in your facility. Whether it's a hospital, school, or store DexArmor costs less and delivers more.

Near Zero VOC Instantly Cured One-coat System

UV curable solutions are more cost-effective in the long run and more environmentally sustainable than traditional wax coatings for VCT flooring.

DexArmor is formulated to be highly durable, long lasting, and easy to use. Only one coat of DexArmor is needed to protect your floors for much longer than conventional floor wax.

Property	Measured Value	Method
60" Gloss	> 85	ASTM D523
Pencil Hardness, gouge	6-7H	ASTM D3363
Abrasion Resistance weight lost, mg	< 50	ASTM D4060 (1,000 cycles, CS17, 1000g)
Solvent Resistance	> 200 MEK	ASTM D5402
Crosshatch Adhesion	5B	ASTM D3359
Coefficient of Friction	> 0.5	ASTM D2047

Less Maintenance = Cost Effective
