The easiest way to sign in visitors

Envoy Visitor Registration simplifies front desk sign-in. Collect contact information, capture visitor photos and have them sign legal documents—all on the iPad.

Streamline visitor sign-in

Envoy helps you boost front desk efficiency. It makes sign-in a breeze, whether you have one or hundreds of visitors per day.

Make a better first impression

The customizable iPad app is an unexpected way to showcase your brand and wow guests with a modern first impression.

Know who's in the building

With automatic badge printing, photo capture and a real-time visitor dashboard, you'll always know who's authorized to be on-site.

Robust features help you work smarter

Send host notifications

Let Envoy notify your team when their guests arrive, and you'll never waste time tracking down a visitor's host again.

Automate legal paperwork

Envoy makes it simple for visitors to review and sign your NDA or waiver, either directly on the iPad or in advance.

Print visitor badges

Envoy automatically prints visitor badges, so it's easy to know who's welcome in your office, and more importantly, who's not.

Speed up sign-in with pre-registration

Send custom invites, alert your team of expected guests, and speed up sign-in—all in one step.

Enhance security with visitor photos

Quick access to visitor photos can prove invaluable in the case of a security incident or emergency.

Simplify audits and compliance

Compiling compliance reports has never been easier: Simply export detailed visitor logs with one click.

Keep everything in the secure cloud

Our cloud-based solution means your data is always safe, come natural disaster or equipment loss.

Manage from the web dashboard

Your dashboard is accessible from any computer, so visitor data and settings are only a click away.

Centrally manage multi-site offices

Configure settings and monitor device status for all locations, from one central dashboard.

ENVOY AT POPSUGAR

"Envoy was up and running at POPSUGAR's three offices within days. It's clear the team at Envoy has thought about the entire experience, from setup to finish."

—Bjorn Pave, Senior Director of Information Technology
