lighthouse.io

A complete facilities management solution powered by the latest location technologies
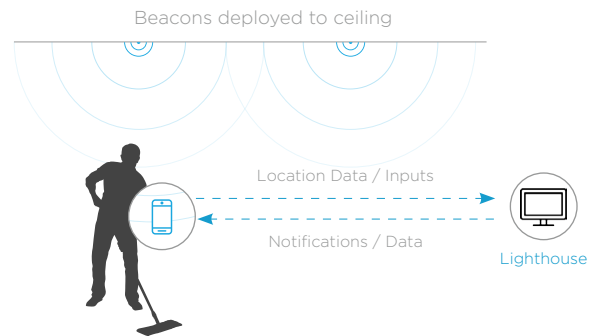

OVERVIEW

Using the latest in location technologies, Lighthouse.io is transforming the way facility services are delivered.

Within seconds management can:

• Identify exactly who is working within your facilities

• Proactively review compliance with agreed KPIs

• Communicate directly with service teams on site

• Ensure you are receiving the greatest return on your investment.

HOW IT WORKS

Beacons deployed to ceiling

Location Data / Inputs

Notifications / Data

Lighthouse

THE SOLUTION

+ **Live maps, heat maps and activity reports** to monitor service delivery

+ **Digital task lists, issue capture and audits** at the right time and place

+ **Proactive alerts that trigger action** for missed compliance rules and KPIs

+ **Comprehensive reports & analytics** to drive continuous improvement

BENEFITS FOR YOU

✓ **Improved visibility of services** backed by verifiable records of activity

✓ **Consistent, high quality service** aligned with your needs

✓ **Support preventing and mitigating risks** including defense of slip and fall litigation claims

✓ **Direct communication with your service team** including ability to request and rate service
