

# WEATHER THE STORM WITH MORTON SALT AND WINDSOR SALT

When temperatures drop, snow and ice control is crucial to keeping your community moving. We are the winter maintenance partner you can trust because we have the experience, network, products and service you need.

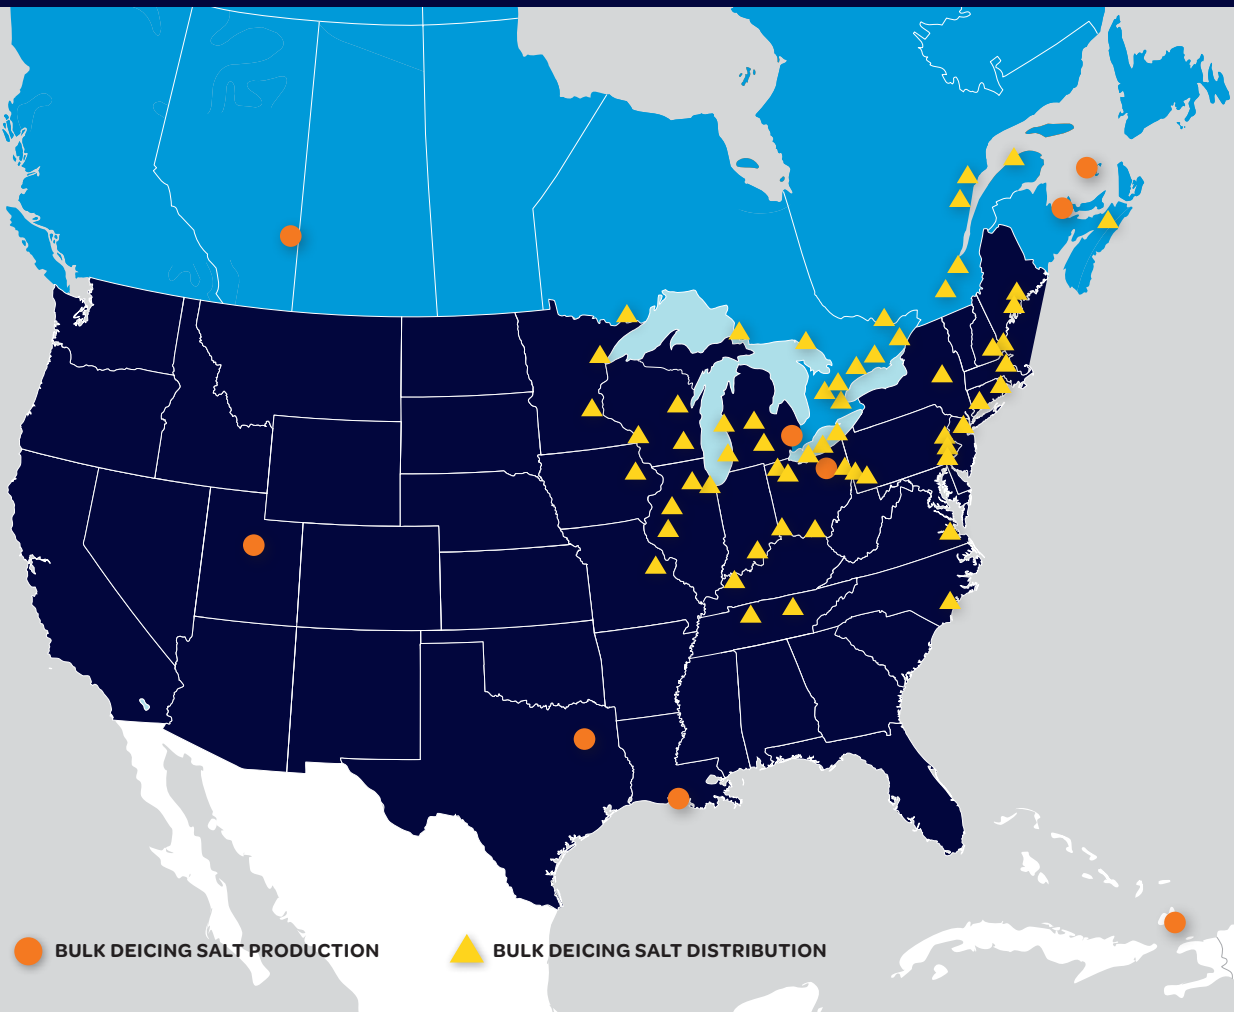

## TRUST IN US

Morton Salt and Windsor Salt are the trusted names in salt in North America. We deliver unmatched quality, service and reliability thanks to a rich heritage and industry experience that spans more than 165 years.

## LOCATION, LOCATION, LOCATION – WE ALL KNOW THAT LOCATION MATTERS. AND WE HAVE YOU COVERED.

We have the broadest production and distribution network in the industry – with strategically located production facilities and stockpiles across North America and beyond. And we can deliver salt – from our bulk deicing products to our packaged ice melters - in an efficient and cost effective way via vessel, barge, rail, or truck.

**SAFETY STARTS WITH SALT**

## **CUSTOMER SERVICE YOU CAN COUNT ON**

We know you have choices when making a purchasing decision. You have our commitment to get you the salt you need – where and when you need it.

Choosing us for your bulk salt deicing needs also means you will have dedicated Customer Service and Sales Representatives who can provide one-on-one support. They know your location, your service requirements, and your weather conditions you are facing, and more. It's that simple.

## **SALT SAVES LIVES, TIME AND MONEY**

In the winter, salt means safety. Using salt to maintain roads in response to winter snow and ice events contributes to a dramatic reduction in roadway accidents. Simply put, salt saves lives. Statistics show that implementing winter maintenance programs that consist of salt spreading can help clear the way for safer driving conditions.

In addition to saving lives, clear roads keep the world moving. Applying salt to winter roads helps get people, products and equipment to where they are needed most. Not only is salt effective, but it is also an economical choice for winter road maintenance.

## **START WITH SAFE-T-SALT®**

Winter can be unpredictable and having enough salt on hand is essential. To fight the snow and ice battle all winter long, turn to our range of deicing products. Our flagship Safe-T-Salt® product are mined from natural underground deposits or naturally evaporated from saturated brine. Bulk Safe-T-Salt® complies with ASTM and AASHTO specifications.
