Experts in Commercial/Industrial Disaster Recovery

Unlimited Restoration, Inc.

About Unlimited Restoration, Inc.

Gerry Rogers, *Certified Restorer*, and Rodney O'Neal joined together to dedicate a new company exclusively to the commercial/industrial marketplace, and in 1996, formed Unlimited Restoration, Inc. (URI). Gerry and Rodney offer the claims industry over 40 years of combined restoration experience.

The company has built an excellent reputation in providing post-disaster cleaning, structural drying, mold remediation, and reconstruction services.

URI takes pride in offering a talented, well-trained field staff, and enables them to provide you with disaster recovery service, utilizing the most current technology and equipment available.

You can expect to see Gerry or Rodney at your project site. They are always available for your questions and comments... just another reason to make URI a part of your disaster action plan.

Commercial/Industrial Capabilities

POWER

Need temporary power? URI provides generators, electrical panels, and the hook-ups needed to run necessary equipment.

DRYING EQUIPMENT

Pictured right, one of URI's trailer-mounted 25,000 CFM Desiccant Drying Units.

PORTABLE EQUIPMENT

URI offers a large quantity of portable dehumidifiers and turbo air movers!

STRUCTURAL CLEANING

URI offers baking soda blast cleaning and sponge-jet blasting of commercial/ industrial buildings!

"Throughout my twenty years in commercial real estate, I have worked with many good contractors, however, your staff has surpassed them all in every aspect."

ANN WALLACE,
REIT MANAGEMENT
AND RESEARCH LLC

Catastrophe Duty

FROM BILOXI TO BAY ST. LOUIS TO NEW ORLEANS TO BOCA RATON TO MIAMI TO ORANGE BEACH...

After a major hurricane or flood, URI responds to the affected area with the necessary equipment and qualified personnel to help ensure the stability and continuity of your company.

Whether it is a manufacturing facility, office campus, hotel, university, hospital, or shopping center, you can rely on URI to promptly address your priorities in a disaster situation.

Many companies today depend on URI to take action in the event of a serious business disruption.

If you would like information about setting up a Service Level Agreement with URI for your Business Continuity Plan, please call us at 888.327.9664.

Business Continuity

PORTABLE WORK STATIONS QUICKLY DELIVERED TO YOUR SITE

URI recently added the **Mobile Command Unit** to its vehicle fleet. The vehicle immediately offers our customers four functional work stations during the restoration phase following a disaster. This will allow property and facility managers to operate and communicate while remaining on-site. The unit offers:

- Four furnished work stations with conference area
- Wireless internet access
- Satellite TV
- Phone system ready hook-up
- Printer, copier and office supplies
- Refrigerator

This is just another way URI is responding to their customer's needs in order to reduce business interruption.

Please let us know if you have any comments and suggestions on how URI can improve its services. Our company is always looking for ways to be more responsive, and in making a disruptive situation a smoother and more effective transition for you.

"Our business interruption was kept to a minimum, which we really appreciate. In the years that I have done business with your company, I have had nothing but great results."

STAN PAWLOSKI,
GENERAL MANAGER
CSK MANAGEMENT, INC.

Mold Remediation

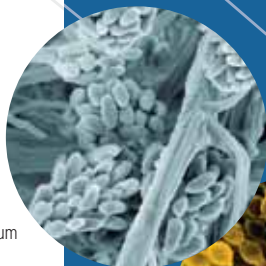

With public awareness growing daily, one of the largest liability concerns today is the control of mold and mildew in commercial buildings.

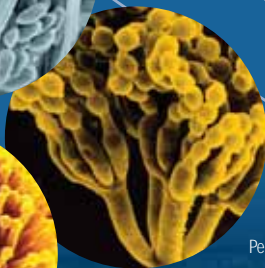

When mold spores land on a damp spot indoors, they begin expanding, digesting whatever they are growing on in order to survive. All molds have the potential to cause health effects, and can produce allergens that can trigger allergic reactions.

Moisture control is the key to inhibiting mold growth. Moisture problems should be investigated promptly, and plans should be set to dry any wet, non-moldy materials within 48 hours to prevent mold growth.

URI has extensive experience in providing drying and mold remediation services within commercial buildings, and works very closely with certified industrial hygienists, who can provide testing, a scope of damage, and a plan of action.

Stachybotrys chartarum

Penicillium brevicompactum

Aspergillus fumigatus

"It is clear that the company values its reputation and ability to provide quality service."

R. CHRISTOPHER SPICER,
CERTIFIED INDUSTRIAL HYGIENIST
CENTRENEIL, INC.

Specialized URI Services

MACHINERY/COMPUTERS

TGI Technical Services offers responsive disaster recovery service on damaged machinery and equipment, computers, electrical boxes, tools, dies, work-in-process, and finished components.

HVAC CLEANING

URI's Environmental Division "cleans the air you breathe." Whether it be a disaster or general maintenance project, you and your employees will be breathing healthy air after this service.

"No matter how big or small the job is, URI has been extremely responsive and will have a crew on-site that day."

JOHN VANWART,
VICE PRESIDENT/BROKERAGE SERVICES
MARSH USA, INC.

DOCUMENT SERVICES

Document recovery services are also available at URI, where we help you segregate and stabilize important damaged documents. The documents are frozen, then dried and sanitized. Copying and re-jacketing service is also available.

We're on it.
