-  **Green** Pass Inspection Report.
-  **Red** Deficiency Found.
-  **Blue** Repairs In Progress.
-  **Faded** Historical Reports.

“VFS inspections program and their ability to work side by side with our engineers and the authorities having jurisdiction across the country, has made our national account program **‘Simple to Manage’** and a success.”

**Russell Licciardello**  
Sr. Engineering Project Manager  
**Univar USA, Inc.**

“VFS has been a valuable resource to Nexeo. It’s critical that we partner with a professional such as VFS that understands the complexities of the chemical distribution business and is able to handle our needs nationwide. Their knowledgeable design staff and technical field expertise make VFS a leader in their field.

**We continue to put our trust in VFS.”**

**Mark J. Dobrinen**  
Director of Engineering  
**Nexeo Solutions**

“VFS’s inspections and maintenance program is a critical asset to our company for maintaining our fire & life safety systems. They have also consistently deliver on our largest most complex construction projects across the country.

**We value VFS special hazards expertise and commitment to quality”**

**Michael Harrington**  
Reginal Operations Manager  
**Univar USA, Inc. / Gas & Oil Division**

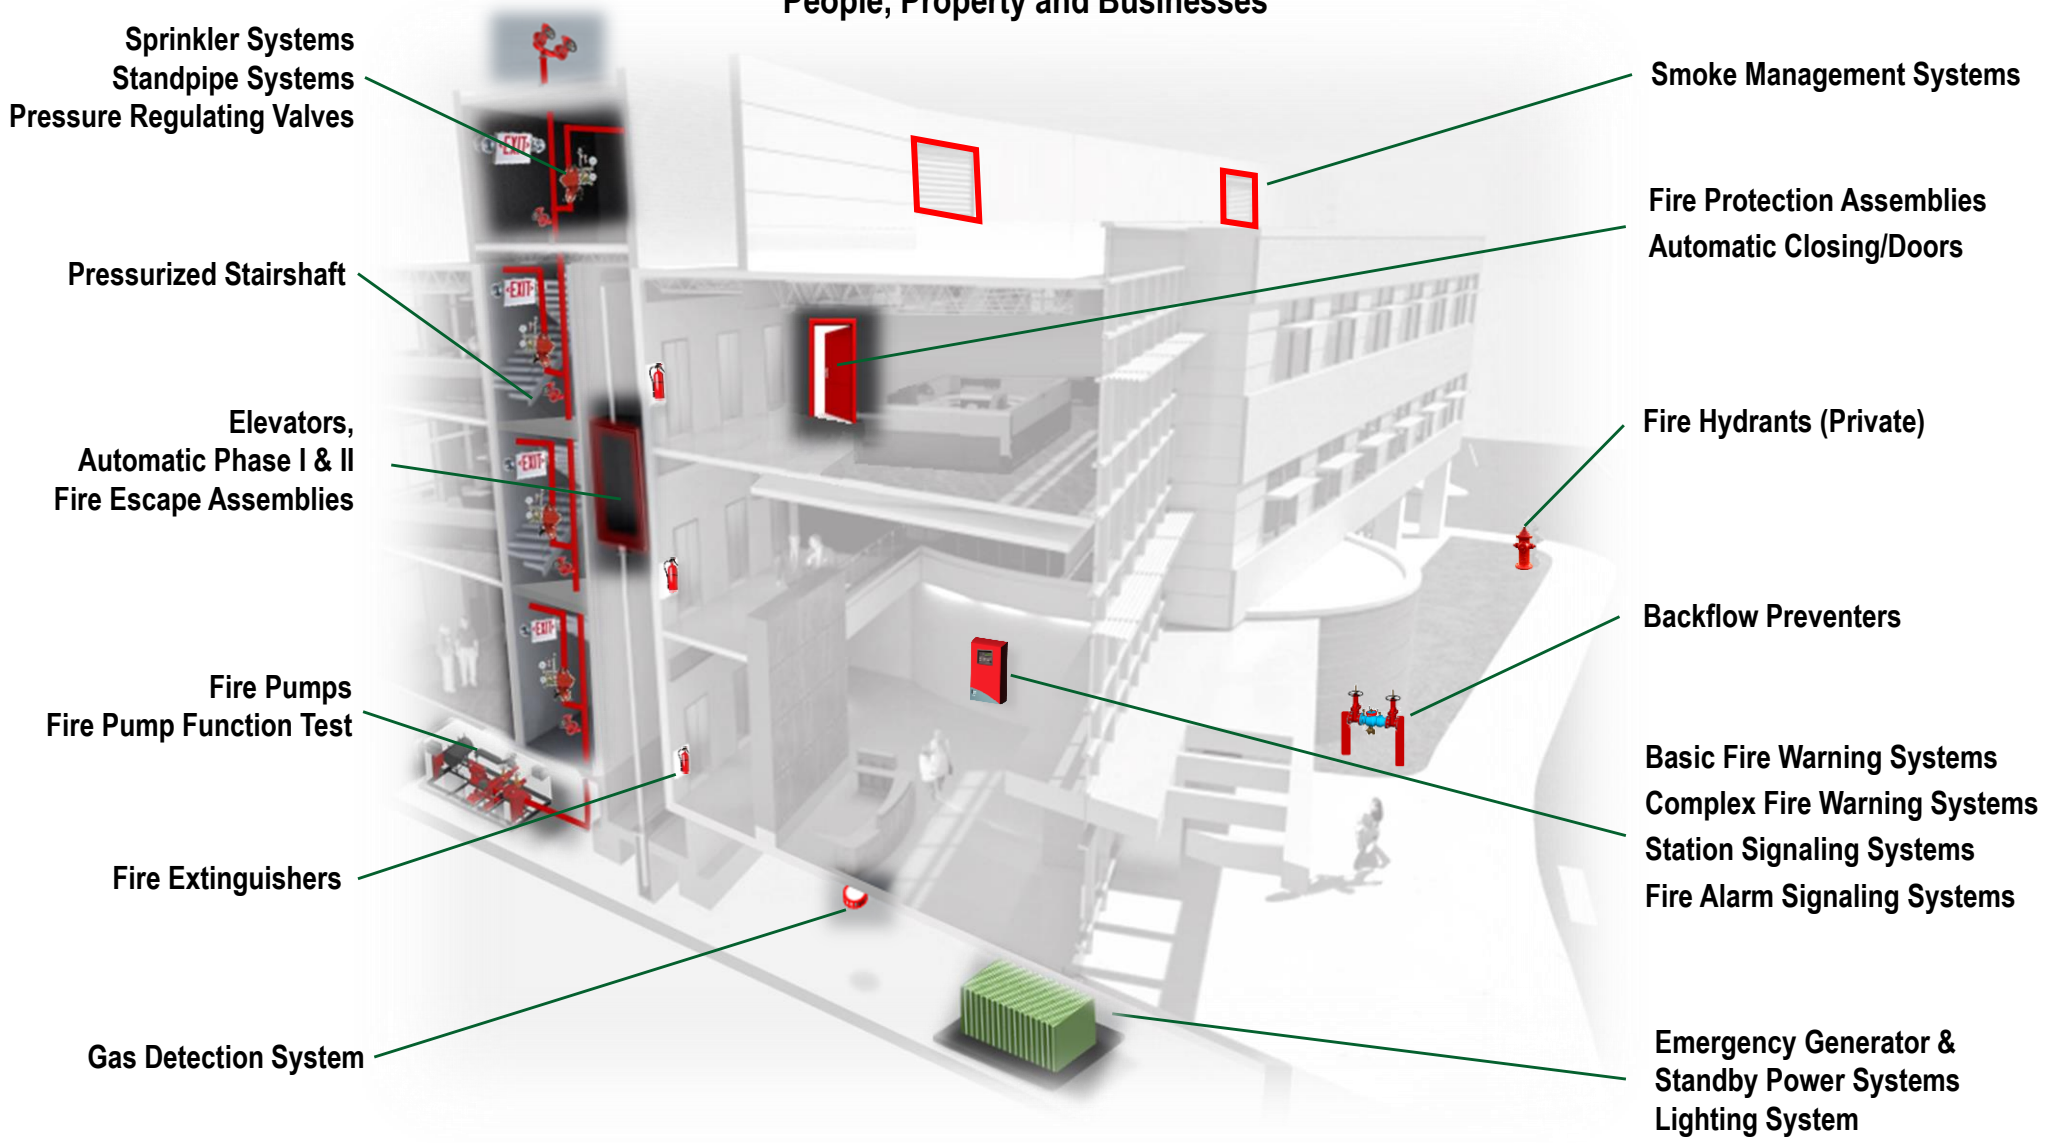

“VFS is the only fire protection company that I would suggest to contact for fire protection consultation. **They’re big enough to take on anything and small enough that you’ll always get a voice and be treated as an individual rather than a number.**

They are an all-encompassing fire protection company with emphasis on service”

**Paul DeArmond**  
Project Manager III  
**San Bernardino County , Project Management Division**
