## VSC Fire & Security, Inc. Customer Commitment

VSC Fire & Security delivers integrated, leading-edge fire protection, life safety and security solutions, including fire suppression, fire sprinklers, fire detection, alarms and security systems. As the premier provider of fire protection and life safety solutions from Maryland to Alabama, VSC Fire & Security provides each and every customer with comprehensive solutions through outstanding design, efficient installation, reliable service and repair and experienced inspection expertise.

## More than Fifty Years of Experience & Stability

VSC Fire & Security's heritage of quality workmanship and exceptional customer service is based upon the sterling reputation of Virginia Sprinkler Company, Inc., the founding company of VSC Fire & Security. Customized fire protection and life safety solutions are strengthened by highly trained technicians, exceptional bonding capacity and financial strength, a strong safety record and cutting-edge technological expertise.

## Regional Strength, Local Service

VSC Fire & Security serves customers with a fleet of signature red trucks and a team of dedicated and trained project managers, designers,

technicians and installers. With immediate access to the supplemental resources of fifteen district offices, the professionals at VSC Fire & Security design, integrate, implement and service solutions on fast, efficient turnaround.

## Extensive Industry Experience

VSC Fire & Security partners with building owners and professionals such as architects, general contractors and corporate managers, who are responsible for the planning and managing of fire protection, life safety and security systems, encompassing installation, service and inspection. VSC Fire & Security is experienced in a variety of facilities including transportation, biotechnology and chemical processing facilities; places of worship; data centers; educational and day care centers; government facilities; sports complexes, historic properties and collections; hospitals, medical offices and laboratories; hotels; and, industrial and warehouse facilities.

## Allied with Leading Manufacturers

For customers seeking scalable, integrated fire protection and life safety systems utilizing today's user-friendly, intuitive technology, VSC Fire & Security designs and delivers optimal, innovative and cost effective solutions. Working in partnership with a variety of leading manufacturers, VSC Fire & Security offers customers cost-effective, high quality fire protection and life safety solutions.

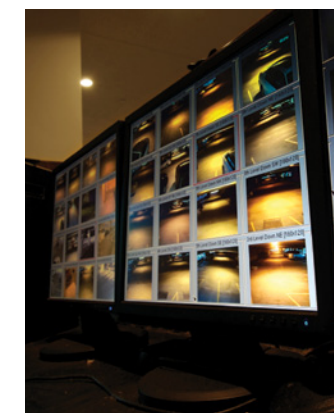

## Fifteen Convenient Locations

## Inspections, Repair & Asset Protection

The long-term operational reliability of fire suppression, detection, alarm and security systems is paramount. VSC Fire & Security's dependable repair, inspection, testing, 24-hour on-call service, and record keeping programs and coordination of required certifications and inspections deliver seamless integration within facility systems. VSC Fire & Security provides testing and inspection in accordance with the standards established by the National Fire Protection Association.

VSC Fire & Security, Inc. also provides corrosion inspection services for internal fire sprinkler systems. Our team of technicians help detect microbiologically influenced corrosion (MIC), sludge, rust and debris. VSC Fire & Security provides resolution and mitigation services to help address corrosion and obstruction issues.

\*VSC Fire & Security provides pipe and supply fabrication for fire protection installations through its Virginia Sprinkler™ service.

**CUSTOMER COMMITMENT ♦ EXPERIENCE ♦ STABILITY ♦ INDUSTRY LEADER ♦ LOCAL SERVICE ♦ INNOVATION ♦ CUSTOMIZED SOLUTIONS**
