

Creating an  
impact  
in facility  
solutions

From the customers you serve,  
to the teams you manage, to the  
products you choose — managing  
the cleanliness, budget, productivity  
and wellness of a facility is no small feat.

**Let Veritiv lend a helping hand.**

## INDUSTRY EXPERIENCE

Our commitment to the industry and to our customers runs deep. We stay connected through association memberships and represent an elite team of educated and credentialed facility advisors.

Drive inefficiencies out of your operations with the help of Veritiv's **Lean Facility Maintenance Advisors**. These specially trained professionals are third-party Lean certified, CIMS certified with a solid knowledgebase of proper cleaning processes and have earned the OSHA 10-hour Hazard Recognition merit.

Our **Healthcare Facility Advisors** provide evidence-based solutions to help you break the chain of cross infection. They're accredited in HIDA Medical Sales, certified in ISSA Cleaning Management Standards and experts in workloading productivity software.

Veritiv's **High Performance Buildings Advisors** are committed to helping you find a smarter way to manage your buildings. They are ISSA® CIMS and LEED® green cleaning certified, and will conduct a facility assessment to analyze more than a hundred different aspects of your cleaning program. This assessment reveals opportunities that can improve the health and safety of your occupants, enhance your building's marketability and more.

Attract and retain quality students, faculty and staff... all without exceeding your budget. Our **Smart and Sustainable Campus Advisors** are ISSA CIMS and LEED green cleaning certified, and will work alongside you to determine the right blend of products and services to be successful in all areas of your campus.

Backed by a dedicated customer service, IT and sourcing team, your advisor will work with you on a personal level and ensure you have the tools necessary to tackle challenges, fill gaps and advance your business to the next level.

No matter your industry, or obstacle, Veritiv™ has the products and services to improve your facility — from the floor up.

## PRODUCTIVITY TOOLS

Determining the number of hours needed to staff a facility is like a high-wire balancing act. A bid too far to the right or left can spell disaster. Just as the high-wire performer carries a pole for balance, you need a tool to balance competitiveness with profitability.

Using Veritiv productivity tools, your advisor can determine how many service hours are needed to clean your building, and ultimately maximize your cleaning resources.

Which machine is right for you? Our ROI calculator compares the upfront, operational and maintenance costs for up to three different machines to help you make the best purchase decision. Plus, you can document savings to justify the mechanization of labor intensive processes with easy-to-read graphs.

## SUSTAINABILITY

Veritiv is a leading sustainable distributor — from source to solution. We offer a variety of sustainable products, and deliver them to you in a responsible manner. In doing so, we'll help you meet your sustainability goals. You'll also reap the benefits of our exclusive **Green Gauge™** tool that tracks your LEED progress and other responsible products and procedures.

## MEET WANDA

WANDA (Washroom Attendant Notification Digital Aid) is an interactive touchscreen for your facility which improves your customer service and streamlines your cleaning operations.

It's easy to use, mounts to the wall, tracks supplies, and perhaps most importantly, gives your patrons a voice. When a customer sends a request for cleaning, your staff is immediately notified and can quickly respond.

## SUPPLIERS AND BRANDS

We maintain strategic sourcing relationships with industry-leading suppliers and brands, granting you access to what you need, when you need it.

Reliable Brand™, Veritiv's exclusive Facility Solutions product line, offers a comprehensive cleaning solution that leaves employees and customers feeling good about your business — all without breaking your budget.

A light green map of North America, including the United States, Canada, and Mexico. The map shows state and provincial boundaries. Numerous small black squares are scattered across the landmass, representing delivery points. A thin green line is drawn across the map, starting from the left edge and ending under the text '95%'.

We're able to offer  
next day delivery to

**95%**

of our North American customers.

## LOGISTICS

Veritiv's logistics solutions help you optimize your entire supply chain. We'll collaborate with you to pinpoint the root cause of any inefficiencies, resulting in:

- Less time in transit and more time to break into new markets
- Reduced expenses
- Improved company profitability

## eCOMMERCE

We make connections one click at a time.

Our online ordering system connects you to the essential products and tools that keep your business booming. It's customizable, available 24/7, and simplifies your procurement process.

Need inventory management assistance? Veritiv will help you gain visibility into your cash flow patterns, manage and approve budgets — on a daily, weekly or monthly basis — monitor order frequency and more.

**Our exclusive SmartSync™ system takes inventory management one step further. Simply scan and upload to restock. Real-time data reporting is also available.**

Another benefit is the ability to integrate enterprise systems. Veritiv has invested significantly in key third-party partnerships to meet your procurement objectives.

No matter your industry or obstacle,  
**Veritiv has the products and services**  
**to improve your facility,** from the floor up.
