

**Arc is a state-of-the-art platform for buildings, cities and communities to collect data, manage and benchmark progress, measure impact and improve sustainability.**

The vision of the U.S. Green Building Council (USGBC®) is that buildings and communities will regenerate and sustain the health and vitality of all life within a generation. Arc is an important piece of the puzzle to enable an environmentally and socially responsible, healthy, and prosperous environment that improves the quality of life.

## Highlights:

- » For both LEED certified and non-certified buildings looking to improve energy, water and resource use as well as improve human health and well-being.
- » Arc uses carbon and water as metrics, which means you get the actual emissions and gallons associated with your project.
- » Streamlined data management and performance-based certification to multiple sustainability rating systems.
- » Entire portfolios also use Arc to understand the performance of their certified versus non certified projects and set goals for improvement.

## How does it work?

Simply register your project in Arc, input its data and monitor your score. Arc calculates a performance score out of 100, which is based on a global data set and action-oriented strategies across five categories:

Energy

Water

Waste

Transportation

Human Experience

## Features:

**SEE YOUR PERFORMANCE SCORE:** Use the Arc performance score to track your project's improvements over time. Watch as you move closer towards LEED® or other green certifications.

**BENCHMARK PROJECTS AGAINST PEERS GLOBALLY:** Leverage comprehensive data analytics to benchmark and view scores on a local and international scale.

**ENJOY THE SIMPLE USER INTERFACE:** Arc features easy-to-use resource management dashboards.

**ENGAGE STAKEHOLDERS:** Communicate sustainability and ongoing performance with all building and community stakeholders. Drive action and impact using the score as a guide.

Together, let's create places that improve quality of life for all.

## Pricing:

Access to Arc is included for all registered and certified LEED projects.

	USGBC Members	Non-members
LEED Projects*	FREE	FREE
All Others	\$1,200	\$1,500
Cities & Communities	\$2,500	\$5,000

\*includes LEED registered and LEED certified projects
