

**Definition:**

In-line or linear exhibit spaces are generally arranged in a straight line and have neighboring exhibitors on the left and/or right of their exhibit spaces leaving one side of their exhibit space exposed to the aisle. We do not allow end-cap exhibit space.

**Use of Space:**

Display materials should be arranged in such a manner so as not to obstruct sightlines of neighboring exhibitors. We do not allow cubic content or extended headers in 20' in-line space.

**Exhibit Space Rental Drape & ID Sign:**

- In-line space will have a standard 8' high red and white back drape and 3' high red side drape.
- Booths 300 square feet or less will receive a 7" x 44" one-line identification sign.

**Carpet:**

Due to COVID 19, in 2021 we will **not** have aisle carpet. Exhibitors will **NOT** be required to carpet their exhibit booth space. If you would like to carpet your exhibit booth space, please see Freeman's rental carpet.

**Height:**

All display fixtures and components including graphics and identification signs are allowed a maximum height of 8 feet in the rear half (measuring 5 feet from the back wall) of the exhibit space. A maximum height of 4 feet is allowed in the front half of the exhibit space (measuring 5 feet from the aisle). See image A below.

**Corner In-line or Linear Exhibit Spaces:**

A corner exhibit space is an in-line/linear exhibit space at the end of a series of exhibit spaces with exposure to intersecting aisles on two sides. All guidelines for in-line/linear exhibit spaces apply.

**10 x 30's or larger In-line Exhibit Spaces:**

When three or more in-line/linear exhibit spaces are used in combination to create a single exhibit space, the 4 foot height limitation only applies to the portion of the exhibit space which is within 10 feet of an adjoining exhibit space or corner. See image B below.

**All Exhibit Spaces Must Adhere to Display Regulations:**

Including ADA, demonstrations, lighting, sound, structural integrity, and storage.
