PACKAGE DESCRIPTION and INFORMATION

Your show management has chosen to produce a 2D bar code on each name badge for this event. This will allow you, as an exhibitor, immediate access to valuable data on your potential customers. The 2D bar code provides access to demographic information as provided by the attendee (and approved by show sponsor).

Rover: A handheld portable data collection system with LCD display. No electrical needed. Unit will be downloaded and the data will be emailed in Excel format at the end of show (The data will also be available in other formats on a web site which will be on the return receipt). The exhibitor simply scans the attendee 2D Barcode and the Rover reads and stores all of your sales leads and displays them on the LCD screen.
*No electrical needed.

Pick up your equipment at the LEAD RETRIEVAL BOOTH and bring it back at the end of the show. Our staff will instruct and show you how to use the equipment.

Create a custom response. Designate up to 20 standard single item responses (E.G. "Send Literature", "Call", etc.) Indicate appropriate follow-up with the attendee. See custom code response sheet.
