

Vehicle Display Information

Vehicles on Premise

Any exhibitor bringing a vehicle to display for the event will need to inform Event Management as a permit will be needed before any vehicle can be allowed on the expo floor.

Company: _____ **Exhibit Space #** _____

Type of Vehicle: _____

Vehicles on display will need to obtain a permit from the Clark County Fire Department. To apply for a permit, you will need to submit: (2) copies of a completed application. (Check the box labeled liquid or gas-fueled vehicles or equip in assembly area (FLQT). (3) copies of the floor plans and a check made out to CCFD). You will need to write the statements from the vehicle display guidelines on your floor plans (i.e.: Battery will be disconnected, etc...)

Below is a listing of the vehicle display guidelines. For more information and instructions on submittals, please follow the links below. Automobiles or other fuel powered vehicles of any nature must adhere to the following guidelines:

- Gasoline tanks at 1/8th full
- Batteries disconnected
- Fuel-filler caps locked or taped.
- Non-flammable drop cloth placed under the engine.
- Locking gas caps.
- Ignition keys removed.
- A set of keys must be turned over to the hotel.
- Propane tanks to be removed.
- Each vehicle must be equipped with its own fire extinguisher.

Exhibitor is responsible for obtaining all CCFD permits. CCFD reserves the right to alter the above requirements without prior notice.
